# Healthy Eating and Drinking

Australian Government  
National Health and Medical Research Council  
Department of Health and Ageing

[www.eatforhealth.gov.au](http://www.eatforhealth.gov.au)

## Australian Guide to Healthy Eating

Enjoy a wide variety of nutritious foods from these five food groups every day.  
Drink plenty of water.

Use small amounts

Only sometimes and in small amounts

## Why is it important to eat a range of foods?

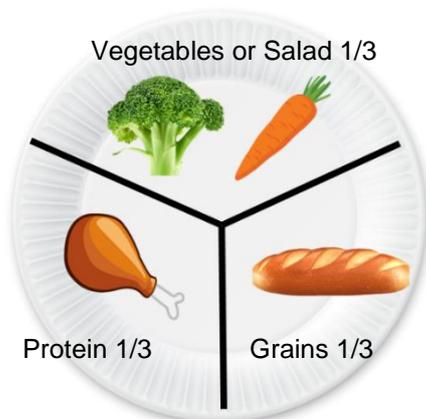

Protein for  
growth

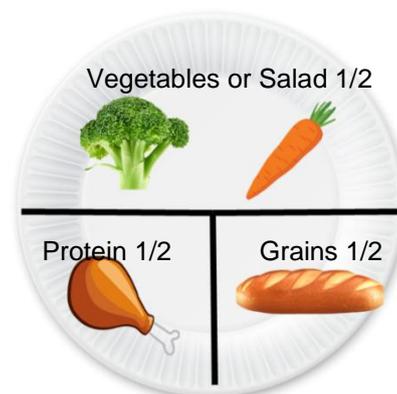

Vegetables  
For your body to  
function properly

Carbohydrate  
for energy

### Healthy plate

Under 5 years

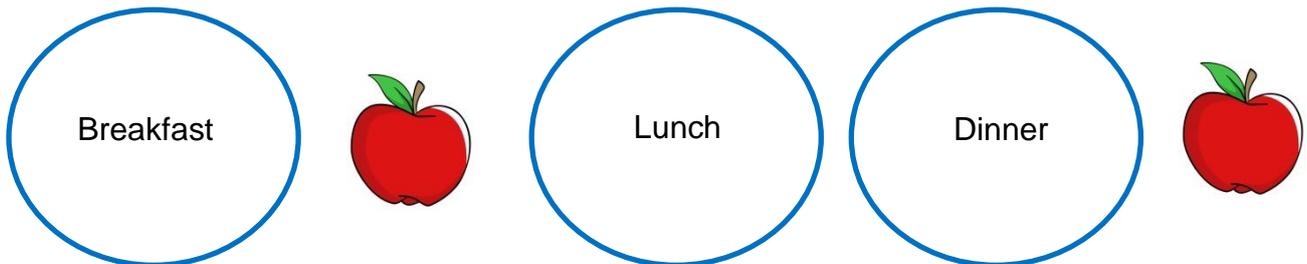

Over 5 years

## Healthy eating pattern

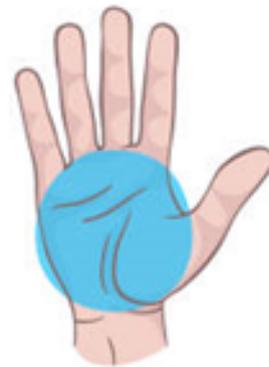

3 meals and 2 snacks per day

## How much

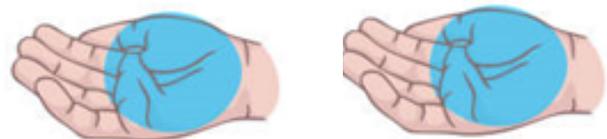

Bread, rice, pasta size of fist

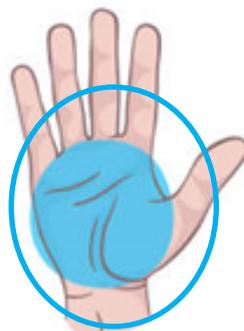

Meat the size of palm of hand

Oil the size of thumb

Vegetables the size of two palms

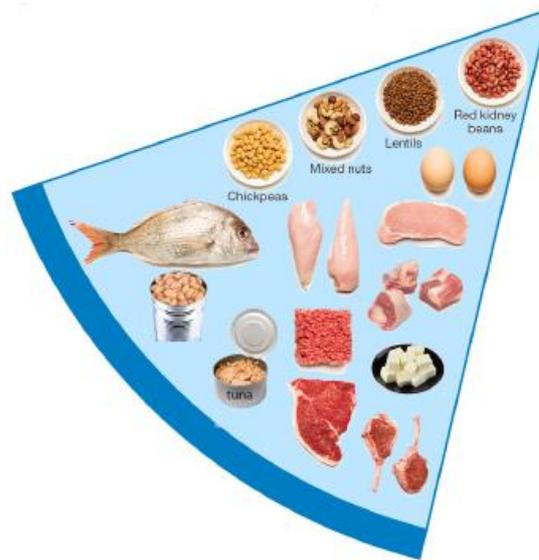

Flat bread the size of palm and fingers

## Iron Rich Foods

Iron is important for carrying oxygen around the body, keeping us well (immunity), and energy production

The more red the meat, the more iron it has

## What other foods have iron?

Baked Beans

Leafy, green vegetables

Spinach

Eggs

Legumes/pulses/beans, cooked

Almond or Peanut  
Puree/Paste/powder

## Tips

Some food and drinks stop the body absorbing iron

Have milk away from meals

Only 1 cup per day

1

Cow's milk or fortified soy milk

No tea or coffee at meals

## Drinks

Drink water every day. Juice and soft drinks only occasionally

## B<sub>12</sub> Rich Foods

Vitamin B<sub>12</sub> keeps the body's blood cells and nerves healthy, and helps make DNA.

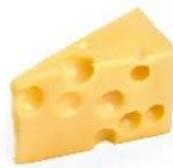

## Calcium Rich Foods

Calcium is important for healthy bones and teeth

Cow's milk or fortified soy milk  
1 serve = 250mL

Cheese  
1 serve = 2 slices

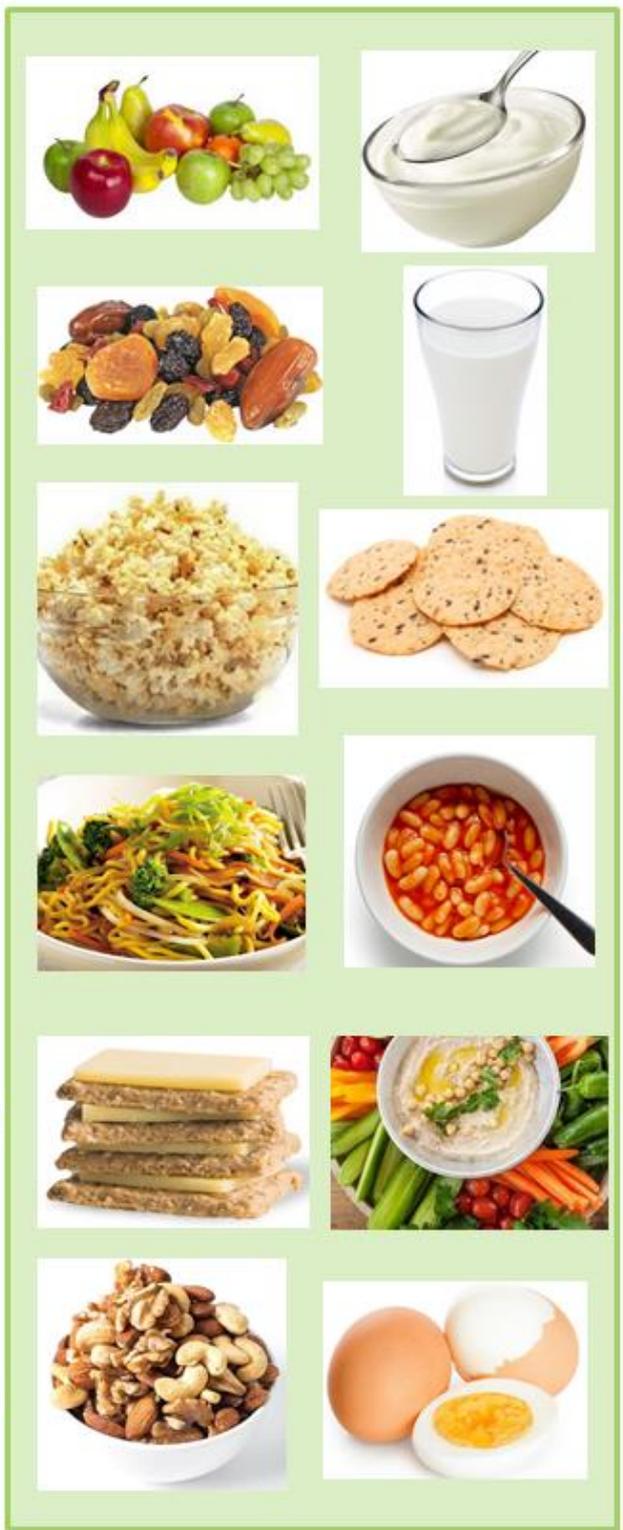

Yoghurt  
1 serve = 200g

**Serves of dairy or dairy alternatives each day for each age group**

	2-3 years	4-8 years	9-11 years	12-13 years	14-18 years
Boys	1 ½	2	2 ½	3 ½	3 ½
Girls	1 ½	1 ½	3	3 ½	3 ½
