Quick Reference Guide to Public Wi-Fi at PCH

Perth Children's Hospital provides a free Wi-Fi service to help patients, families and visitors stay connected.

The PCH Wi-Fi ('**HEALTH-Guest**' network) is accessible throughout the hospital. You do not require a password to connect to the hospital's free Wi-Fi.
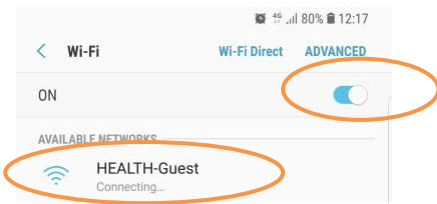

Accessing the internet

The way you connected to PCH Wi-Fi varies according to the device type. In all cases, make sure that your device is able to connect to Wi-Fi and has Wi-Fi turned on.

Note that you need to scroll to the bottom of the terms and conditions of use in order to accept or decline them.
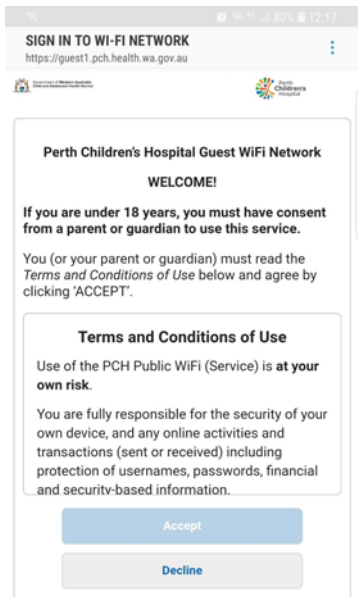

Android Devices

e.g. Samsung, Motorola or Google Phones and Tablets

1 Make sure your Wi-Fi is ON

2 Connect to the HEALTH-Guest network in your Wi-Fi settings

3 When prompted to Sign-in to the Wi-Fi network", touch the message.

4 Read the terms and conditions of use on the web page that opens and accept if you agree.

5 You should now be "Connected" to the HEALTH-Guest network, and have access to the internet.

Apple Devices

e.g. iPads and iPhones

1 Make sure your Wi-Fi is ON

2 Connect to the HEALTH-Guest network in your Wi-Fi settings

3 Open a browser e.g. Safari on your device, and browse to www.google.com

4 Read the terms and conditions of use on the web page that opens and accept if you agree.
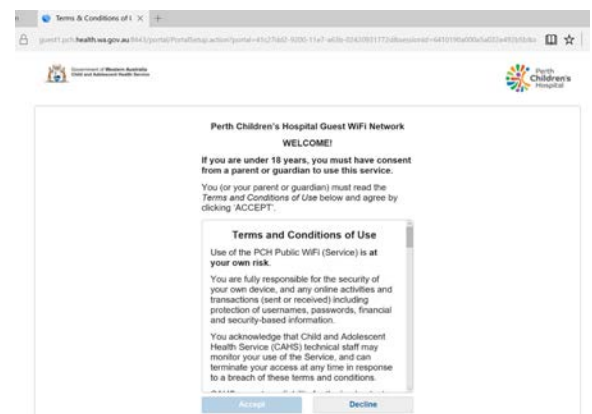

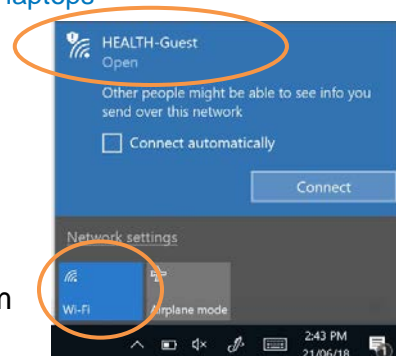

5 You should now have access to the internet.
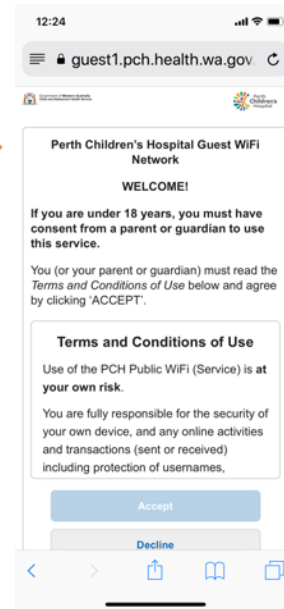

> **Important**
> You will only be able to access the internet after accepting the terms and conditions of use for the PCH Wi-Fi.

Windows Devices

e.g. most laptops

1 Make sure your Wi-Fi is ON

2 Connect to the HEALTH-Guest network in your Wi-Fi settings

3 Open a browser e.g. Chrome on your device, and browse to www.google.com

4 Read the terms and conditions of use on the web page that opens and accept if you agree.

5 You should now have access to the internet.

> **Important**
> You will only be able to access the internet after accepting the terms and conditions of use for the PCH Wi-Fi.
