

Attending my respiratory clinic

1

I want to be healthy so
I am going to see a
breathing doctor.

2

I am coming to Perth
Children's Hospital for this.

3

I am packing some of my favourite
things to help me feel comfortable.

4

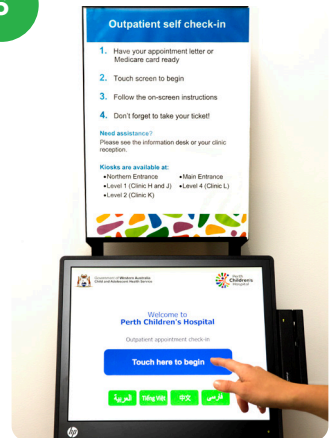

From ground floor, I take the pink
lifts to the 1st floor.

5

Next, I walk to clinic F.

6

I use the check in
machine.

7

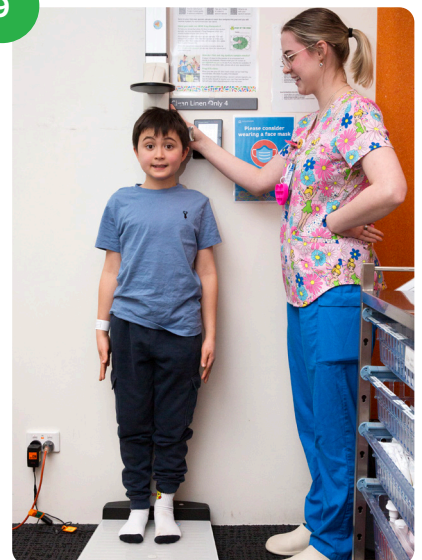

I can then relax in the
wait room.

8

I will meet a nurse who will
be my helper.

9

My helper will measure my
height and weight.

10

Next they might measure my temperature and blood pressure.

11

My helper might put a light on my finger that glows in the dark.

12

I may need to wait to be seen by the doctor.

13

My number will be called on the screen.

14

I will go in to see and talk to the friendly doctor.

15

The doctor will listen to my chest with a stethoscope.

16

I will wait while the doctor talks about a plan to keep me healthy.

17

The appointment is finished. I say goodbye and it is time to go home.
